

2017 multiple sclerosis scientific pdf

Multiple sclerosis (MS) is a demyelinating disease in which the insulating covers of nerve cells in the brain and spinal cord are damaged. This damage disrupts the ability of parts of the nervous system to communicate, resulting in a range of signs and symptoms, including physical, mental, and sometimes psychiatric problems. Specific symptoms can include double vision, blindness in one eye ...

Multiple sclerosis - Wikipedia

Primary progressive multiple sclerosis accounts for 10 to 15% of the overall population with multiple sclerosis. 1 The course of this disease differs from those of relapsingâumremitting and ...

Ocrelizumab versus Placebo in Primary Progressive Multiple

Despite the availability of several disease-modifying treatments for relapsing forms of multiple sclerosis, patients often continue to have clinical and subclinical disease activity, and ...

Ocrelizumab versus Interferon Beta-1a in Relapsing

The International Panel on MS Diagnosis presents revised diagnostic criteria for multiple sclerosis (MS). The focus remains on the objective demonstration of dissemination of lesions in both time and space.

Recommended diagnostic criteria for multiple sclerosis

Multiple sclerosis (MS) is a chronic inflammatory demyelinating disease that affects the central nervous system (CNS). Several therapies for it exist, although there is no known cure. The most common initial course of the disease is the relapsing-remitting subtype, which is characterized by unpredictable attacks followed by periods of relative remission with no new signs of disease activity.

Multiple Sclerosis Journal is a peer-reviewed international journal that focuses on all aspects of multiple sclerosis, neuromyelitis optica and other related autoimmune diseases of the central nervous system.. The journal for your research in the following areas: • Biologic basis: pathology, myelin biology, pathophysiology of the blood/brain barrier, axo-glial pathobiology, remyelination ...

Multiple Sclerosis Journal | SAGE Publications Ltd

When Sylvia Lawry started the MS movement in 1946 with the founding of the National MS Society, research into multiple sclerosis was almost non-existent. The disease took years to diagnose, and there were no therapies proven to slow the course of MS. Things have changed. Decades of research into MS ...
