

building intelligent databases with pdf

The current study presents an intelligent decision support model using rule sets based on a typical building energy management system. In addition, the model's impact on the energy consumption and indoor quality of a typical office building in Greece is presented.

Intelligent building energy management system using rule

Since its beginning, Automated Logic has focused on one objective: developing innovative building automation systems with the latest technologies to offer operational freedom, flexibility and ease of use.

BUILDING AUTOMATION SYSTEM - Automated Logic Corporation

Intelligent code completion is a context-aware code completion feature in some programming environments that speeds up the process of coding applications by reducing typos and other common mistakes. Attempts to do this are usually done through auto completion popups when typing, querying parameters of functions, query hints related to syntax errors, etc. Intelligent code completion and related ...

A database is an organized collection of data, generally stored and accessed electronically from a computer system. Where databases are more complex they are often developed using formal design and modeling techniques.. The database management system (DBMS) is the software that interacts with end users, applications, and the database itself to capture and analyze the data.
