1 Executive Summary The National EMS Education Standards (the Standards) represent another step toward realizing the vision of the 1996 EMS Agenda for the Future, as articulated in the 2000 EMS Education Agenda for the Future: A Systems Approach. The National EMS Education Standards outline the minimal terminal objectives for entry-level EMS personnel to achieve within the parameters outlined ...

National Emergency Medical Services Education Standards

Modern day simulation for training was first utilized by anesthesia physicians in order to reduce accidents. When simulation skyrocketed in popularity during the 1930s due to the invention of the Link Trainer for flight and military applications, many different field experts attempted to adapt simulation to their own needs. Due to limitations in technology and overall medical knowledge to a ...

In the United Kingdom, medical school generally refers to a department within a university which is involved in the education of future medical practitioners. All leading British medical schools are state-funded and their core purpose is to train doctors on behalf of the National Health Service. Courses generally last five or six years: two years of pre-clinical training in an academic ...
