Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and is thus that which specifies the nature of that entity, as well as the essentiality of its properties. Information is associated with data and knowledge, as data is meaningful information and represents the values attributed to parameters, and knowledge signifies understanding of an ...

The greater the resistance, the steeper the slope of the plotted line.. Advanced answer: the proper way to express the derivative of each of these plots is  $[dv/di]$ . The derivative of a linear function is a constant, and in each of these three cases that constant equals the resistor resistance in ohms.
