How to teach expository text structure. Tompkins (1998) suggested the following three steps to teach expository text structures: Introduce an organizational pattern: The teacher introduces the signal words and phrases that identify each text structure and gives students a graphic organizer for each pattern. Give students opportunities to work on the text: The teacher provides the students with ...

Ray tracing aims to simulate the natural flow of light, interpreted as particles. Often, ray tracing methods are utilized to approximate the solution to the rendering equation by applying Monte Carlo methods to it. Some of the most used methods are path tracing, bidirectional path tracing, or Metropolis light transport, but also semi realistic methods are in use, like Whitted Style Ray Tracing ...

A diagram is a symbolic representation of information according to some visualization technique. Diagrams have been used since ancient times, but became more prevalent during the Enlightenment. Sometimes, the technique uses a three-dimensional visualization which is then projected onto a two-dimensional surface. The word graph is sometimes used as a synonym for diagram.
