What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual’s own skills and sense of purpose to guide them through difficult times (“Narrative Therapy”, 2017).

Overview. Heuristics are the strategies derived from previous experiences with similar problems. These strategies rely on using readily accessible, though loosely applicable, information to control problem solving in human beings, machines, and abstract issues.. The most fundamental heuristic is trial and error, which can be used in everything from matching nuts and bolts to finding the values ...
