Professional Scrum Master Simulated Exam Review

Scrum is an agile framework for managing knowledge work, with an emphasis on software development. It is designed for teams of three to nine members, who break their work into actions that can be completed within timeboxed iterations, called "sprints", no longer than one month and most commonly two weeks, then track progress and re-plan in 15-minute stand-up meetings, called daily scrums.

For a little while last year I was using a quiz in my Certified ScrumMaster courses that was deliberately designed to be super hard. Why? Because if anyone could answer it correctly before the end of the class, I would give them their certification early and allow them to leave. Not a single person out of 100!
